WATERWORKS **EXTENSION PLAN**

Engineers Confer Over the Matter.

Square Rather Than Round Conduit Has Been Suggested.

Survey of the Distributive System Will Be Begun at Once by Engineer Riter.

City Engineer Riter was in conference yesterday with Consulting Engineer Doremus and George M. Bacon, assistant engineer in charge of the water works extension plan. Engineer Doremus is going carefully over the plans prepared by Mr. Bacon for the big conduit that is to bring the water from Big Cottonwood creek

Plans Have Been Altered.

Mr. Bacon has materially altered the plans made by his predecessor, Mr. Drummond. His plan contemplates a square rather than a round conduit, with a slightly curved or trenched bot-tom. This, it is conceded, can be built at much less expense and be made much stronger than the circular con-duit. It is estimated that such a conduit, for the distance to be constructed, can be built for \$20,000 less than the circular conduit. Distribution System of Waterworks.

City Engineer Riter will begin work at once on the survey of the distribution system of the water works, as au-thorized by the Council Friday night. in order to determine the needs of the system to accommodate the increased supply of water and also to give more uniformity of pressure over the city. It is conceded that the system of mains is in need of overhauling under a carefully drawn plan, and therefore the City Engineer asked authority to make this survey, as was recommended in his an-nual report made the first of the year,

BEANE'S CROSS-COMPLAINT.

He Asks a Severance of His Marital Relations.

Frank W Beane vesterday filed an anewer and closs-complaint to the divorce suit of his wife, Minnie Beane. The com plaint of Mrs. Beane was filed several days ago, and charged her husband, who, she said, was a lawyer in Idaho earning \$2500 a year, with drunkenness and failure to provide. Beane in his answer denies all the allegations of the complaint, even that saying he is a lawyer. He asserts that she has been a resident of Sait Lake City less than a month, instead of one City less than a month, instead of one year, as stated in her complaint. In his cross-complaint Beane charges his wife with infidelity and alleges that she has been living in adultery with a man in Salt Lake whose name is given as Charley. He asks a severance of his marital relations on this ground

Astonished to Find Fine Churches Here

California Banker Believed That Mormons Had a Genuine Cinch in Salt Lake.

"I am most impressed by the wonderfully beautiful churches that are now being built in Salt Lake," declared W. H. Bucholz, an Oakland, Cal., banker, who was at the Kenyon during the day. "The impression is quite general in other States that the Mormons control practically everything here, and I am both surprised and pleased to note your substantial evidences of progress and modernity.

MATRIMONIAL MARKET IN JUNE

It Was an Unusually Lively One.

Popular Day for Marriage Licenses Is Tuesday.

Fewer Are Issued on Friday as a Rule Than on Any Other Day.

The matrimonial market was well up in June. During the month just closed 227 licenses to wed were issued from the County Clerk's office, as against 169 in June of last year-an increase of 58 This shows that June is still the month of brides. The highest record for number of licenses issued on one day was equalled during the past month, 25 being issued in one day. The record was almost equalled on another day, when 23 were issued.

Tuesday Popular Day.

The popular day for marriage licenses is Tuesday, there being more liother in the week. Fewer are issued on Friday as a rule than on any other day of the week. In the former in-stance it can probably be accounted for from the fact that the Sait Lake Temple is usually open for marriages on Wednesday. Marriages in Temple.

Marriages in the Temple begin bright and early Wednesday morning, as may be observed by early risers who pass that institution. Not all the marriages in the Temple are performed on that day, but by custom that has come to be regarded as matrimonial day.

Friday Is the Slow Day.

It is easy to see how Friday is the slow day for marriage licenses. The Friday superstition is probably more videspread than any other. Few people will start on a journey on Friday and persons about to take the plunge into the sea of matrimony are not to be excepted from the rule. "Go to Clerk's Office."

Nearly half the couples who go to the city and county building for marrlage licenses apply first at the County Recorder's office. The direction to go to the County Clerk's office has become stereotyped reply in Recorder Perkins's department.

Cupid of Courthouse.

Deputy County Clerk David A. Smith as come to be known as the cupid of the Clerk's office. Although other deputies, as well as County Clerk Eldredge himself, may issue marriage licenses, it falls to the lot of Mr. Smith to watch over the destinies of the west door, and he can spot a prospective bride and groom at sight. Deputy Smith is an elder in the Mormon church and au-thorized to perform the marriage service. He has a simple, but impressive eremony, which always ends with the injunction, "Kiss your bride." Elder Smith, however, does not claim any osculatory prerogatives himself, being a dignified married man

Begin Work on Walks

This Is Under the New Plan, Which Allows Five Years in Which to Pay Cost.

In accordance with the resolution of the Council, passed Menday night, the Hoard of Public Works yesterday ordered the contractors to begin work on a number of sidewalk extensions under the new plan, which allows the prop-erty owners five years in which to pay the cost.

In Accord With Scrip Law.

The resolution was in accordance with the scrip law passed by the last Legislature, and avoids the delays hereto-fore incident to public improvements by reason of the provision which re-quired the payment of one-third of the assessment into the treasury before work could be ordered.

Many Extensions in View.

The City Council has in contemplation the ordering of a large number of sidewalk extensions during the summer and fall, the new plan making it easy on the property owners. The banks are all anxious to carry the scrip provided by the new law and it is there-fore thought there will be little opposition in future to sidewalk extensions

New Y. M. C. A. Building Open to Inspection

Formal Opening Will Take Place Monday Evening, July 10, Admission to Be by Card.

An inspection of the new Y. M. C. A building will take place Monday evening, July 10, for the special purpose of giving the persons who contributed to the building of the new structure and its equipment an opportunity to go over it from cellar to garret. The next day, Tuesday, July 11, the formal opening will take place between the hours of 4 and 10. There will be no speech making and the public is cordially invited to be present.

Anticipates Large Crowd.

The management of the association is anticipating a large crowd of visitors and in order that all may have an equal opportunity to make a thorough inspection of the building it has been decided to admit persons by card only, each card bearing the particular hour the holder may be admitted. These cards will be distributed among the business managers of the four daily papers of the city, who will have authority to issue them to persons making application for them. At an election of officers held some time ago it was de-cided not to elect a chairman at that time, but to postpone the matter until tomorrow's meeting, when, in all probability, Miss Kate Williams will be elected. The other officers are: Vice-chairman, Mrs. O. A. Honnold; secretary, Mrs. A. H. Boxrud; treasurer, Mrs. W. Mont Ferry.

Railway Men Join.

H. C. Colson and twenty-five others of the employees of the Short Line have just joined the association and Mr. Colson has informed Secretary Cox that he has eight others who will join shortly. Fifteen members are now living the building and it is anticipated that all the bachelors' quarters will be occu-pled by the middle of next week, when the electric lighting system will be completely installed.

Law-Breaker and Law-Defler Poses as a Representative of Utah.

Piloted by Apostolic Liar Penrose and David P. Feit, several hundred of the National Editorial association, who arrived here six hours late, went out to Saltair Saturday afternoon, listened to the tales poured into their ears by zealous Mormons and took a plunge into the lake, returned on the 4 o'clock train, listened to a recital in the Tabernacle and as a sort of climax to the days' enjoment, had the honor of lisening to speeches by Apostle Editor Penrose and Apostle John Henry Smith. Why John Henry nobody ex Henry plained, but it was doubtless because of the fact that he and Penrose were typical representatives of the law-deers of Utah.

The guests went to the lake on the o'clock train. A few had lunches, but the majority ate nothing for many hours. As soon as they arrived under the pavilion Apostle Penrose and David P. Felt tried to marshal the groups of visitors together for a bathing party.

One of the most humorous incidents of the day was entirely lost upon the apostle, because if his ignorance of whom he was imploring to take a dip A group of the American party standing together by the ice vater tank when the apostle came and water tank when the aposte came with watery eyes and a shifty smile advanced toward them. The surprise of the day to the visitors, but not to the residents of Salt Lake, came at the Tabernacle. The way things went might have won for the day the name of "Mormon day," with the National Press association in attendance. As usual the recital by Prof. John C. McClellán was excellent and on all hands the crowd was heard to exclaim on the beauty of the Taber-nacle organ. The programme consisted of such numbers as brought out the

After the musical programme, just as the assembled audience were mak-ing ready to rise, Editor Felt announced that they would be favored by a speech by Editor Penrose. Why they were to be thus favored was not stated to the people, and a number of them murmured against being kept supperless and luncheonless to listen to a man without any position in the association.

Boosts for the Church. Of course Editor Penrose made it the

occasion of a boost for the church and not for the State. \$100.00 mark. If possible it will be built so as to be ready for use during the next school term.

It is the intention of those in charge to build a thoroughly modern gymnasium, which will be fitted up with the latest apparatus. The location and size of the building, it is believed, will make it very useful, and consequently justify the expenditure of a large amount of money.

The front of the building will correspond in dimensions to the Barratt hall structure, and will be three stories high. The basement will contain a swimming pool 22x00 feet and various other features. The gymnasium proper will occupy the top floor, which will be supplied with an elevated running track of fourteen laps to the mile, a gallery capable of seating 750 spectators and movable seats under the running track to accommodate at least 1000 more.

There will be a ladies' gymnasium separate from the main gymnasium. It will be about 40x65 feet in area. It will be splendidly equipped for gymnastic purposes.
